MISTIK
MANAGEMENT LTD.
Creating opportunity since 1989

We'd like to hire you.

We are **Mistik Management Ltd.** Our forestry operations are focused in the boreal plain of northwest Saskatchewan. Mistik offers a rewarding, high-tech, fast-paced work environment within a collaborative team context. We are currently seeking a capable person to join our group of forestry professionals.

We are looking for a uniquely qualified individual – if you are a passionate, hard-working team-player who cares about details and high-quality outcomes – we'd like to talk to you. We want to see:

> Your well-worn work gloves…your scuffed and muddy work boots…that you can ride an ATV…that you've been through a college or university program…that you're tough enough to handle working outdoors in all kinds of conditions…that you are energetic and motivated…that you're a capable user of GPS, computer and internet technology…that you can say what you think…that you're flexible…that you are great at organizing yourself…that you are willing to learn…that you like working collaboratively with a team…and that you care about the quality of your work.

If you think you have what we want – give us a call.

This is a full-time, entry-level, forestry-based opportunity focused on supporting Mistik's log haul administration and compliance tracking systems, forest renewal program and other operational forestry field duties. Mistik offers an industry-standard compensation package accompanied by a top-tier health (vision/dental/medical) and pension benefits package.

Come make a career with us…start by sending your resume and cover letter - including the names of several references - by **4:00 PM on Monday, March 3, 2014** to:

Georgina Umpherville
Finance and Administration Manager
Mistik Management Ltd.
P.O. Box 9060
Meadow Lake, Saskatchewan
S9X 1V7
