Daily commuting to our office is easily accessible via the Anthony Henday, Whitemud Drive, and the Yellowhead Trail.

Opportunity Description

CPP Environmental is currently seeking an intermediate to senior level **Natural Resource Planner** to join our team. The position will be based out of our Sherwood Park office. The following is a description of the scope of work.

- Conservation and reclamation planning (for EPEA regulatory requirements including oil sands developments, aggregate applications and industrial applications)
- Reclamation plans (terrestrial and wetlands)
- Aggregate exploration plans, operating plans and commercial feasibility assessments for both private and public land operations
- Site selection and routing planning for projects (industrial sites, aggregate development, access roads, utility right of ways etc.)
- Pre-disturbance site assessments for regulatory applications
- Post-disturbance assessments for reclamation and remediation plans
- Reclamation cost estimates
- Reclamation certificate assessment and applications
- Caribou Protection Plans and other wildlife related mitigation plans
- Supervision of projects

Minimum Qualifications

- Possess a post-secondary degree or diploma in an environmental science.
- Be a member in good standing with the Association of Alberta Forest Management Professionals, Alberta Institute of Agrologists, Association of Professional Engineers and Geoscientists of Alberta, Alberta Society of Professional Biologists, or Alberta Professional Planners Institute.
- A valid driver's license for Canada.
- Be proficient in conducting field work in remote locations.

Ideal Candidate

The ideal candidate will effectively use their diverse background of skills and experience to successfully work with the CPP Environmental team and stakeholders in developing high quality services and products to our clients. Attributes of the ideal candidate:

- 5+ years of experience conducting natural resource planning (e.g. aggregate, FireSmart, wildlife or forest management planning).
- Demonstrated experience in taking aggregate plans from pre-application to approval stages. We expect the applicant to 'hit the ground running' in a reasonably independent manner with respect to taking on aggregate planning projects. The successful applicant will be project managing aggregate planning projects as a primary responsibility, but also other planning projects.
- Experience conducting pre and post disturbance site assessments (e.g. soils, vegetation or wildlife).
- Proven knowledge of land management, forest management and/or conservation and reclamation planning.
- Working knowledge of current reclamation techniques, technologies and practices.
- Project management experience.
- Basic plant (trees, shrubs, forbs and grasses), insect and disease and/or wildlife identification skills
- Ability to work with confidence either independently or in a team setting.
- Ability to work on multiple projects, set priorities, and meet rigid deadlines.
- Professional, safety conscious, and client focused attitude.
- Knowledge and use of field data loggers, GPS equipment, etc.
- Valid first aid and CPR, ATV operator, H2S, ground disturbance and other certificates are desirable.

Apply through the CPP Environmental Corp website careers page on our website <http://www.cppenv.ca/careers/> or email applications to careers@cppenv.ca

Successful applicants must provide proof of qualifications.

Closing date: The position will remain open until a suitable candidate is found.
