

## Engineering Assistant

Caliber Bridge and Design Ltd is a Professional Engineering and Construction company located in Campbell River British Columbia. We service primarily the Resource Sector throughout Vancouver Island and Coastal British Columbia. Our primary services include Professional Engineering as it pertains to Bridge/Road Inspection and Design, Resource Road / Bridge Construction and Maintenance.

Caliber is currently seeking applicants for an Engineering Assistant position to work from our office in Campbell River. The ideal applicant will have entry level experience working in Coastal British Columbia field conditions as well as a strong technological skill set. Typical breakdown of work will be approximately 50% field and 50% office. Field work will involve working in local and remote areas. Office work will involve the organization of data and preparation of reports. Entry Level AutoCad skills and a Class 5 drivers license are desired but not required.

If you are interested in this full time position please forward your cover letter and resume to John Brett, PEng at: [john.brett@caliberbridge.ca](mailto:john.brett@caliberbridge.ca)

[www.caliberbridge.ca](http://www.caliberbridge.ca)

All resumes received are appreciated and reviewed. Caliber will contact only those applicants selected for an interview.
