

FIRST RESOURCE MANAGEMENT GROUP

Forest Management Technician

July 20, 2018

First Resource Management Group Inc. (FRMG) is a growth-oriented forest management firm based in New Liskeard, Ontario, with satellite offices in North Bay and Kirkland Lake. Our team provides forest management services on over 7 million hectares of Crown forest in Ontario. This creates unique diversity of forestry challenges and opportunities to learn from other technical professionals. Our core focus on forestry planning and support allows our forest industry, government and First Nations clients to focus on their own core businesses. We are active in the forest carbon market. Our **SkyForest™** remote sensing technology is being used in forests across Canada.

FRMG rewards entrepreneurial leadership, innovation, continual improvement, a focus on customer satisfaction, and dedication to team work within our organization.

We are currently accepting resumes from motivated individuals to join our team as a Forest Management Technician tasked with coordinating and implementing forest management services to our clients. Your responsibilities will include (among other things):

- ✓ GIS mapping;
- ✓ Annual planning and reporting;
- ✓ Plan amendments and revisions;
- ✓ Stock procurement, and
- ✓ Silvicultural implementation

Qualities and Qualifications

Your strong inter-personal and communication skills will allow you to effectively communicate, effectively represent FRMG and work with our contractors, our clients, their contractors and various levels of government. Your communication skills will allow you to and our clients, to the government, the public and other external organizations. As well, your ability to speak French would be considered an asset.

You want to work in the office and in the field. You have attention to detail and understand its importance. Your organizational skills and attention to detail will allow you to provide analyses and accurate mapping products. You understand the importance of doing the right thing.

You will develop approaches that lead to cost-effective outcomes.

Demonstrated experience in one or more of the following forestry-related fields:

- ✓ GIS applications and/or remote sensing
- ✓ Silviculture
- ✓ Forest management planning
- ✓ Forest operations

A college diploma or degree in forestry is required however a post-secondary graduate with work experience in an associated discipline will also be considered.

About Working for First Resource Management Group

FRMG values an appropriate work-life balance for all of our team members. Our teleworking policy could provide you with the additional flexibility you need for long-term job satisfaction. We have a diverse working environment with both young and seasoned professionals that work together in a collaborative environment. We invest in our employees through training and professional development. We empower our employees to take ownership of their work and to communicate with the rest of the team on a regular basis.

Work hours are flexible, as long as you get the job done. We have a comprehensive benefits program including life and health insurance, RRSP and vehicle use.

To make sure we pick the right people for our team, we usually interview potential candidates more than once.

Please submit your cover letter and resume in confidence to frmgcareers@frmg.ca by **August 17, 2018**.
