

## **FOOTHILLS FOREST PRODUCTS**

is a manufacturer of dimensional lumber and wood pellets in Grande Cache, Alberta. With the goal to further evolve as a premier manufacturer of quality products, we are presently seeking three high calibre individuals to fill the following roles:

### **Sawmill Superintendent**

### **Maintenance Superintendent**

### **Project & Process Improvement Superintendent**

The successful candidates will be leaders in their current role with the ability and desire to rise further in their career development.

To succeed in these positions, the successful candidates will possess the following attributes:

- Excellent communication and interpersonal skills;
- Proven leader and team-builder who develops others;
- Strong technical knowledge of lumber manufacturing processes;
- Thrives in a challenging environment;
- Strong analytical and problem solving skills;
- Drives for success with a continuous improvement mindset.

We endeavour to rank amongst the best in safety, quality, efficiency and cost. We value our customers, appreciate our employees and strive toward operational excellence in manufacturing and environmental stewardship.

If you wish to pursue a new and challenging career opportunity, to further develop your skills and enjoy a competitive salary and benefits package, please submit your covering letter and Resume by email no later than November 16, 2017 to:
