

## Maintenance / Reliability Engineers

One of the world's largest producer of panels including oriented strand board (OSB), medium density fibreboard (MDF), particleboard and related products has opportunities for maintenance and reliability engineers for major mills in Western Canada.

If you are a graduate engineer and have successful career experience in maintenance and/or reliability engineering we want to talk to you about opportunities with this Canadian success story.

Candidates must have working rights in Canada.

Interested persons should forward resumes or for further information, please contact:
