

Operations Superintendent

This opportunity is with a well-established and highly successful forest industry company located on the British Columbia coast with operations on Vancouver Island and the Greater Vancouver regions.

Initially your focus will be to establish and manage a maintenance and quality assurance program in an existing operation. You will then expand horizons into the production side in career preparation for planned succession to the divisional General Manager role.

Candidates will have post-secondary education in engineering or trades (electrical or millwright) plus a successful career to date in supervision in maintenance or engineering environments. Knowledge of computerized maintenance systems and PLC's is essential.

Remuneration includes a competitive salary range, full benefit package, and bonus structure.

Interested persons are welcome to contact Ron Hogg at Forest People for full details on this career growth opportunity.
