

# Excellence grows here.

## Job Opportunity: Operations Lead, Campbell River, BC

### Who We Are

Interfor is a growth-oriented lumber company with operations in Canada and the United States. We have an annual production capacity of 3 billion board feet and offer one of the most diverse lines of lumber products to customers around the world.

### What We Offer

Interfor is where excellence meets opportunity. We invest in your success by positioning you alongside the best people in top quartile mill facilities located in great communities across North America. In the past decade, we've infused close to \$1 billion into modern facilities and systems that employ the latest technologies.

Interfor is one of the largest lumber companies in the world and we're growing in exciting directions. Come be a part of our success.

We are currently recruiting for an **Operations Lead for our Coastal Woodlands Division. This position will be based out of our office in Campbell River, BC and will oversee our Sunshine Coast operating areas.** The Operational Lead will be responsible for planning and directing road building, harvesting (including Heli) and post-harvest activities for up to 600,000 m<sup>3</sup> annual cut, including contractor procurement, contract supervision, and the delivery of Safety, EMS, and Quality Control programs as required.

### What You'll Do

- Plan and forecast the execution of all operational activities (roads, harvesting and post-harvest).
- Responsible for contract negotiations and direct assistance to Area Manager.
- Supervise and effectively coordinate Contract Supervisor, Area Forester and all contractor activities in a geographic area.
- Work closely with Planning Leads to ensure a profitable and predictable delivery of logs to meet Log Supply requirements.
- Duties required to plan, implement and monitor operations, safety plans, EMS compliance and Log Quality in relation to defined performance targets.
- Provide information to the Planning Lead to allow for Divisional Planning and forecasting.
- Develop relationships and work closely with Log Supply & Supply Chain to optimize the marketing and transportation of fiber from the harvest blocks to internal/external customers.
- Develop relationships and work closely with accounting to provide accurate timely information.

### What You Offer

- Degree or diploma in Forestry.
- RPF or RFT preferred
- Aptitude in Microsoft and computer applications such as Forest OPS would be an asset
- Understands coastal logging systems.
- Familiar with coastal operational phase costs.
- Coastal logging engineer background.

- Good physical condition.
- Commitment to safety and environment.
- Demonstrated experience and competence as an Area Engineer.
- Innovative and bottom-line driven business values.
- Practical knowledge of timber quality and value.
- Excellent interpersonal and communication/decision making abilities.
- Ability to work independently within your operation and effectively participate within a team of peers focused on optimizing bottom line performance.
- Detail oriented. Action and results oriented, take charge attitude.
- Flexibility to work camp shifts.
