

THE LEMARE GROUP

The Lemare Group is currently accepting applications for the following staff positions;

- Camp Manager
- Woods Foreman
- Heli-log Operations Manager

Camp Harvesting Manager:

This is a senior harvesting manager position responsible for the planning and operations of a contract harvesting operation on Northern Vancouver Island.

- This is a camp position with a 10/4 shift.
- 240,000M3 annual harvest
- Full phase
- This position reports to the owner of the company and is supported by a falling supervisor, Master Mechanic, HR Manager, OH&S Coordinator, Senior Planning Engineer and DLS Supervisor.

The applicant must have an extensive background in all phases of West Coast mid-slope falling, yarding, loading, hauling and dump and boom. A proven track record in managing Occupational Health and Safety, meeting quality and production targets and environmental stewardship is required.

The applicant must be well organized, a strong communicator and highly motivated.

The Lemare Group offers a competitive salary, a comprehensive benefit package and the potential to achieve annual performance rewards. The salary for this camp supervisor position is very generous when bench marked against industry standards. In addition to the base salary, there are significant performance incentives available.

Woods Foreman:

This is a harvesting supervisor position responsible for the day to day supervision of a full phase West Coast mid-slope contract harvesting operation on Northern Vancouver Island.

- This is not a camp position but may involve brief camp work from time to time.
- 180,000M3 annual harvest
- Full phase
- This position reports to a Senior Operations Manager and is supported by a falling supervisor, Master Mechanic, HR Manager, OH&S Coordinator and DLS Supervisor.

The applicant must have an extensive background in West Coast mid-slope yarding and loading. A proven track record in managing Occupational Health and Safety, maintenance and production is required.

The applicant must be well organized, a strong communicator and highly motivated.

The Lemare Group offers a competitive salary, a comprehensive benefit package and the potential to achieve annual performance rewards.

Heli-log Operations Manager

This is a senior harvesting manager position responsible for managing a third party contract heli logging operation in the Mid Coast (GBR) and Northern Vancouver Island.

- This is a camp position with a 15/6 shift.
- 350,000M3 Heli log program (volume expected to increase significantly)
- Full phase
- This position reports to the owner of the company and is supported by a falling supervisor, Master Mechanic, HR Manager, OH&S Coordinator, Senior Planning Engineer and DLS Supervisor.

The applicant must have an extensive background in all phases of West Coast heli logging including falling, yarding, loading, hauling and dump and boom. A proven track record in managing Occupational Health and Safety, meeting quality and production targets and environmental stewardship is required.

The applicant must be well organized, a strong communicator and highly motivated.

The Lemare Group offers a competitive salary, a comprehensive benefit package and the potential to achieve annual performance rewards. The salary for this senior supervisor position is very generous when bench marked against industry standards. In addition to the base salary, there are significant performance incentives available.
