

Maple Leaf Forestry Ltd.

Total Resource Management

Re: Seeking Forest Development Staff!

Maple Leaf Forestry Ltd. is a well established forestry consulting firm providing a diversity of professional and technical environmental/forestry/GIS services to government and industry clients throughout British Columbia. Our head office is located in Cranbrook, BC and we have recently opened a satellite division in Fort St. John, BC. To learn more about us please visit: www.mapleleafforestry.ca

Maple Leaf Forestry Ltd. has exciting **career advancement** opportunities for **junior to senior-level forest development personnel**. Positions offered are based out of **Cranbrook** or **Fort St. John** with a mix of office and field work activities described as follows:

Job description

- Multi-phase forest road and cut-block development & engineering
- Block site plan & harvest plan preparation
- Road site plan preparation
- Appraisal preparation and submission
- Cutting permit and road permit preparation and submission
- Ecosystem restoration layout and prescriptions
- Riparian assessments, classification, and layout
- Field assessments and site plan data collection
- Forest health surveys – ground and aerial, depending on the applicant's level of experience
- Timber valuations and timber cruising, depending on the applicant's level of experience
- Professional report writing

Preferred qualifications

- Post secondary diploma or degree in natural resource management or equivalent. Enrolled/registered or eligible for enrolment/registration with the ABCFP.
- Experience related to the above job description
- Knowledge of interior ground-based and cable harvesting systems and operational planning
- Familiar with forest planning regulations (FPPR) and FSPs
- Familiar with pertinent manuals (Cruising, Appraisal)
- Proposal development skills
