Maple Leaf Forestry Ltd. is seeking **Senior Level Forest Development staff**- positions can be filled immediately or as negotiated with the successful candidate. This position will have a mix of office and field based duties.

#### **Job description**

- Multi-phase forest road and cut-block development & engineering
- Block Site plan & harvest plan preparation
- Road site plan preparation
- Appraisal preparation and submission
- Cutting permit and road permit preparation and submission
- Ecosystem restoration layout and prescriptions
- Riparian assessments, classification, and layout
- Field assessments and site plan data collection
- Forest health surveys – ground and aerial, depending on the applicants level of experience
- Timber evaluations and timber cruising, depending on the applicants level of experience
- Report writing

#### **Preferred qualifications**

- RPF or RFT in good standing with the ABCFP. *Those that are enrolled as FIT or TFT will also be considered.*
- 2-3+ years experience related to the above job description
- Knowledge of interior ground-based and cable harvesting systems and operational planning
- Familiar with forest regulations (FPPR) and FSPs
- Familiar with pertinent manuals (Cruising, Appraisal)
- Proposal development skills

**Maple Leaf Forestry Ltd. (MLF) offers** market value wages/salary, comprehensive benefits package, bonus incentives, and flexible holidays. MLF supports professional development training and continuing education through a program of diversification in areas of expertise; and we provide a friendly, healthy working atmosphere with a team of highly skilled forestry professionals.

If you are a fit, energetic person who loves the outdoors and are looking to further your career in the natural resource industry please submit a resume and cover letter today.
