

NORTHERN PULP NOVA SCOTIA CORPORATION

Northern Pulp Nova Scotia Corporation is a northern bleached softwood kraft (NBSK) pulpmill located at Abercrombie Point in Pictou county Nova Scotia. The Woodlands team conducts forest management activities on over 250,000 hectares of timberland in Nova Scotia and is currently seeking qualified applicants for the following position:

Geographic Information System (GIS) Forestry Planner

Northern Pulp Nova Scotia is currently seeking qualified applicants to fill a Geographic Information System (GIS) Forestry Planning position. The successful candidate would be responsible for creation and editing of harvest and road plans using Lidar technology and forest model outputs to meet the several certification standards and provincial requirements. They would also be responsible for maintaining the GIS and the associated data management systems (currently in Access databases). The incumbent will work from the woodlands office at the pulp mill in Abercrombie and will require some time in the field.

Other aspects of this position include creation of various reports for woodlands staff, assistance with long term forest planning, monitoring compliance to certification and provincial standards required for harvesting, silviculture and road building and general support for the woodlands staff and contractors

Requirements:

- A degree or diploma from a recognized forestry program
- A strong forestry background with some knowledge in forest planning, harvesting, road building and silviculture
- Must have experience with ESRI's Geographic Information Software and their suite of tools including editing and geo-processing
- Must have experience with data management systems on multiple platforms including Access databases and the creation of tables, queries, reporting and forms
- Experience using LIDAR and other emerging technologies in forestry applications considered an asset
- Experience and currently certified in the Nova Scotia FEC and PTA data collection would be considered an asset
- Knowledge of Nova Scotia's provincial forestry and environmental regulations and ability to apply them to forestry planning
- Ability to work independently with strong initiative and organizational skills
- Strong analytical and problem solving skills
- Good communication skills and ability to work effectively in a team environment.

To apply, forward the following:

- Detailed resume
- Reference list and contact information
- Copies of all related academic transcripts and Certificates of Qualification to:
