

Pacific BioEnergy  
Prince George Limited Partnership

## REQUEST FOR PROPOSAL Forest Residual Grinding

Pacific BioEnergy is a private company established in 1994 with corporate offices in Vancouver, BC and operations in the heart of British Columbia's forest region — a region which is well recognized for its sustainable forestry practices. We are a leader in wood pellet fuel in North America and are committed to meeting growing worldwide demand for this clean energy source. With our significant asset base, solid relationships and outstanding international reputation for excellence, Pacific BioEnergy is positioned to take advantage of the expected strong growth in demand for wood pellet fuel over the coming years. ### DESCRIPTION OF PROJECT:

Pacific BioEnergy is seeking to hire a contractor to complete a short term non-replaceable forest residual grinding contract in the Quesnel / Batnuni area south of Prince George. The contract would be to immediately process and deliver approximately 5,000 ODT by Sept 31<sup>st</sup> 2018. This volume will be delivered to Pacific BioEnergy's mill site in Prince George.

Contractors interested should be prepared to submit the following information to obtain an RFP package:

- SAFE Certification Registration
- Documentation of recent work history including a brief description of your company, services offered, history, number of employees, major assets.
- References for whom you have completed similar work.

Additional information including block specific information is contained within the "Request for Proposal" package. Pacific BioEnergy may reject in whole or in part, any/and or all proposals for any reason after taking into account factors outlined in the RFP. Contractor Proposal(s) are to be submitted by **17:00** hours on Wednesday **June 18th, 2018**, either digitally to the below noted contact or delivered to Pacific BioEnergy's Prince George office located at

9988 Willow Cale Forest Road  
Prince George, British Columbia.
