

Looking for a career with purpose and passion?

Forest Ecosystem Protection Technician - Perm Full Time

Ministry of Environment
Hudson Bay, SK

Explore
your
future

The Forest Ecosystem Protection Technician will implement policy and procedural changes that ensure forest operational planning and compliance programs support the ministry's shift to a more results-based, service-oriented, regulatory approach. You will be part of a team with field responsibility for approving forest industry operating plans, coordinating and conducting forest operations inspections as well as other regulatory responsibilities which follow the ministry's Compliance Model.

You will have understanding of forest ecology; ability to identify and classify forest vegetation and soils; ability to use and interpret forest cover maps and topographic maps; excellent field orientation using GPS instruments and map/compass; and experience in Geographic Information Systems. You will have knowledge of occupational health & safety regulations and sound judgment regarding personal safety.

Closing Date: February 19, 2018

Competition Number: ENV001436
