

is currently hiring experienced Fallers for a Mountain Pine Beetle Fall and Burn Contract.

For the past several years Valhalla Helicopters has provided services for the government of Alberta such as mountain pine beetle survey and control. We are looking to hire several individuals for immediate employment.

If you enjoy adventure and working hard in a fast paced environment, then this job may be for you. The ideal candidate will be a certified faller which is detail orientated, self-motivated and able to work in remote locations with little supervision while still maintaining a high level of safety. The work is extremely physical and requires a person that is determined to do the job right the first time.

Applicants must have tree falling certification; preference may be given to Fallers with work truck, snowmobile, and a buckler as a partner.

Some of the skills that will be considered an asset are:

- Compass experience
- GPS skills
- Mapping skills
- Previous MPB/forestry experience

All applicants must be physically capable of performing the duties in a full time position. A valid and current First Aid certification would be an asset along with any other relevant training courses.
