

WOODFORD FORESTRY SERVICES

2202 McGowan St.
Enderby, BC
V0E 1V2

Celebrating 10 Years!

Woodford Forestry Services Inc. is a growing company operating in the Okanagan and Shuswap areas. Enderby is centrally located between Vernon and Salmon Arm on the beautiful Shuswap River.

Woodford Forestry offers:

Competitive Wages.

Benefits package.

Gear allowance.

Paid training.

Flexible environment allowing team members to balance their home / work life.

A broad range of projects and small crew size, providing mentoring and rapid career growth opportunities.

We are looking for motivated, ppy people to fill the following positions:

Senior Forest Technician:

The Senior Forest Technician will provide leadership, technically and personally, for forest development projects both new and ongoing. The successful applicant will take a lead role in all aspects of forest development projects and be responsible for but not limited to:

- Crew supervision and quality assurance.
- Provide excellent client relationship building.
- Field and office duties related to full phase forest development projects.
- Work independently and in crew environment with an attitude towards safety.

Required Skills and Experience:

- Three years of road and cut block layout experience at a senior / supervisory level. Cable and steep slope harvesting layout experience an asset.
- Stand evaluation, volume, log product, and value estimation skills.
- Good computer and technical writing skills.
- Experience working with Lidar data.
- Timber cruising and/or waste and residue experience.
- Working knowledge of BC forest legislation.
- Registered or eligible to be registered with the FPBC.

Intermediate Forest Technicians:

As an Intermediate Forest Technician, you will work primarily in the field completing and assisting with all aspects of forest development projects working towards senior level responsibilities.

- Work independently and in crew environment with an attitude towards safety.
- Post Secondary Forestry education and 3 years related experience is preferred. Other experience levels will be considered.
- Registered or eligible for registration with the FPBC. Sponsorship opportunities available.
- Cutting permit development: Block and Road layout and associated assessments.
- Forest sampling: Timber Cruising, Waste and Residue surveys.

Forestry Planner and Technical Support:

We are looking for an experienced Forest planner. This position will be primarily office based with some field work required. Hybrid work options could be arranged.

Create and complete office packages. Q&A of development project deliverables.

LRM site plan data entry.

Lidar cable, and steep slope block planning using road road eng and GIS platforms.

Block planning using lidar data.

Road appraisal data summaries.

Create project templates.

Waste and Residue planning and submissions.

Operational mapping

Qualifications

- Registered or eligible for registration with FPBC.
- High level of skill with office applications. (MS word, Excel).
- Good working knowledge of map making applications.
- Working knowledge of forest planning and harvesting.
- Knowledge of BC forest legislation.
