

Journeyman Millwright

As key member of the Zavisha Sawmills Team, Millwrights report into the Maintenance Supervisor and are responsible for troubleshooting, performing maintenance work and working safely with all machinery in the sawmill and planer mill.

We are a growing company, looking for employees to help us advance and diversify our company. We believe in providing opportunities for growth and advancement. If you are someone who is looking to continually learn and advance in their trade and career, you would be a great fit. Zavisha Sawmills has been working on a system of Continuous Improvement in the workplace for several years and we are committed to doing so for many years to come.

Responsibilities include, but are not limited to:

- Being a key player in a company-wide continuous improvement efforts;
- Troubleshooting, analyzing, diagnosing, and performing maintenance work on plant machinery;
- Contributing in the continuous improvement process by actively participating and sharing ideas in company meetings;
- Participating in preventative and predictive maintenance programs for equipment; and
- Completing basic electrical, hydraulic and mechanical troubleshooting.

Requirements:

- A valid Inter-Provincial Journeyman Millwright certification;
- Commitment to safety and creating a safe work place;
- Strong communication and interpersonal skills;
- Ability to work independently, with minimal supervision;
- Flexible availability around overtime opportunities;
- Commitment to a Continuous Improvement work environment; and
- Previous sawmill experience would be considered an asset.

The Job:

- Working five days a week, totalling 45 hours per week; and
- Eventually rotating between afternoon and evening shifts.
