

**AVISON MANAGEMENT SERVICES LTD.
CAREER OPPORTUNITY**

Avison Management provides professional consulting services to the natural resource sector in project management and development, environmental sciences, and GIS/mapping. Our services are offered to the public and private sector from our offices in **Vanderhoof and Fort St. James BC, and Whitecourt AB.**

A career opportunity exists for a **Terrestrial Ecologist**. The candidate will have the following qualifications:

Qualifications:

- Bachelors or Masters of Science in related discipline from a recognized university.
- Registered or ability to become registered with appropriate professional association.
- The ability to conduct biological inventories with a focus on terrestrial ecosystems.
- Experience with ecosystem classification including taxonomy and species identification.
- Strong written and verbal communication skills.
- Knowledge of Environmental Assessment legislation and procedures would be an asset.

Responsibilities:

- Work as a member of an interdisciplinary team in project design and field data collection.
- Conduct data analysis and prepare reports.
- Field data collection may require remote camp work during the field season
- The flexibility to work within other disciplines as needed would be an asset.

This position can be based out of any one of our offices in Alberta or BC. Salary will be commensurate with experience. Avison Management offers an attractive wage and benefit package to the successful candidate. We thank all candidates for their interest, however only those selected for an interview will be contacted.

All resumes will be handled in confidence and should be sent by email, by **April 2, 2010** to: **bfrenkel@avison.bc.ca**
