

From the seeds of adversity comes great strength

Committed to the highest standards of safety, environmental stewardship and community service, Canfor is one of Canada's largest integrated forest products companies.

Scaling & Waste Residue Supervisor

Bring innovation and efficiency to our operations in BC & Alberta

Prince George, BC

As a member of the Forest Management Group and reporting to the Scaling Coordinator, you'll be responsible for delivering Canfor's scaling and waste programs. This entails auditing sample scales, log quality assessments and the development and delivery of the waste residue plan, all within the mandate of Canfor's environmental policy, forestry principles and environmental management system.

Your day-to-day functions will also see you:

- participating in the development of annual budgets to achieve targets
- ensuring compliance with operational plans, company policies and legal requirements
- focusing on achieving all targets set out in performance management systems
- demonstrating innovation by implementing efficiencies and cost savings through the Canfor Performance Management processes and Continuous Improvement Initiatives.

Your professionalism and strong work ethic are accompanied by a current BC Scaling licence and a minimum of 5 years' experience, preferably in the assessment and delivery of the BC Waste and Residue program. Proficiency in software related to forestry applications plus a valid Class 5 driver's licence round out your profile. Excellent leadership, communication and project management skills will greatly enhance your success in this role, especially if teamed with the ability to work well in a team environment.

Please forward your resume, by 4:00 pm, Friday, February 19, 2010, to:

Debbie Brandner
