

Canfor is one of the world's largest producers of sustainable woodbuilding solutions, and we've built our reputation on top quality products and superior customer service. A global leader in dimension lumber, Canfor is driving demand for green building products and serving markets in every corner of the world.

Field Operations and Silviculture Opportunities

Chetwynd, Fort St. John, Houston, Mackenzie, Prince George, Quesnel, Vanderhoof and Vavenby, BC and Grande Prairie, AB

Innovative leadership and a commitment to the highest standards of environmental, safety and operational excellence have secured Canfor its place as a national and global leader in the industry. Canfor is based in Vancouver, British Columbia with interests in over 31 facilities in British Columbia, Alberta, Quebec, Washington State and North and South Carolina.

Canfor's **Forest Management Group** has positions ranging from 4- to 11-month terms with varying start and end dates.

As one of our **Field Operations Staff**, you will be responsible for layout and/or timber cruising activities. Your day-to-day functions may include photo interpretation and stratification, layout of cutblocks and roads, traversing, pest identification and management, riparian/stream classification, layout reports, cutting permit applications, development of cruise plans, operational cruising and mapping of field information, ecotyping, field resource assessments and assisting Forestry Supervisors as required.

As a **Silviculture Assistant**, you will implement and supervise planting, site preparation and stand-tending projects, utilizing performance management systems and updating the Genus database with planned and completed activities. Completing post harvest prescriptions and plantation assessments, in addition to assisting with Site Plan amendments, may also be required.

We offer a competitive compensation package and the opportunity to expand your skill sets in a challenging and rewarding environment. You must have excellent communication skills, the ability to safely perform physically demanding fieldwork in a team environment, and possess a valid Class 5 driver's licence. Although preference will be given to applicants who are enrolled in, or have graduated from, a forestry program or related field, we encourage anyone with forestry experience to apply as we have opportunities ranging from entry to supervisory level.

If you are excited about the opportunity for personal career growth, please apply by February 15, 2012 by visiting:
