

GREEN ANALYTICS
measuring environmental values

CAREER OPPORTUNITY

RESOURCE ECONOMIST

Green Analytics helps create innovative natural resource management policy that protects the environment and provides economic returns through objective social science research and analysis of the highest caliber. Green Analytics is an independent, for-profit consulting firm rooted primarily in the social sciences and focused on environmental, energy and natural resource issues.

We are currently seeking highly motivated, results-oriented individuals to add to our Resource team.

Job Requirements:

The resource economist position is a full-time salaried position. The chosen candidate will work with the Green Analytics team to develop, deliver and communicate a wide range of projects and initiatives related to the green economy. As such the prospective candidate should meet a minimum of the following requirements:

Academic Qualifications:

To meet the academic qualifications of this position the prospective candidate must meet the following:

- An undergraduate degree in economic, geography, environment or natural resource management.
- A graduate degree economic, geography, environment or natural resource management.
Note: Candidates without a graduate degree may be considered for a junior level position.
- Published peer reviewed academic or non-academic works.

Skill and Experience Requirements:

- Willing to work in a fast paced and challenging environment.
- Have demonstrated experience and understanding of project management.
- Have experience and published academic and non-academic works that involve qualitative and quantitative economic analysis for an environment or natural resource issue. Examples include:
 - Economic valuation of ecosystem services
 - Input/Output or CGE modelling
 - Lifecycle assessments
 - Stakeholder-based modeling
- Prospective applicants must be self-motivated and collaborative.
- Experience in team focused work environment.
- Demonstrated leadership skills.
- Experience using a wide range of communication tools (report writing, presentations, briefing notes, proposals etc.)
- Social media savvy is preferred.

Location:

Work location is subject to discussion. Working remotely is an option.

Compensation:

- Compensation will be competitive with consulting rates in either Alberta and/or Ontario.
- Compensation will be commensurate with experience and final arrangements regarding office space.
- Green Analytics offers a full benefits package (medical/dental package, Flexible Spending Account (FSA) and a company sponsored RRSP plan).

Applications must be received by February 29th, 2012 at 4 pm MT. Please submit all applications electronically to contact@greenanalytics.ca and indicate where you saw our ad listing. If applying, please view our [privacy policy](#).

We thank all applicants for their interest, however only those selected for interview will be contacted.
