

**ASSISTANT INSTRUCTOR (Regular – 100%)
Fish and Wildlife Program
SCHOOL OF CONSTRUCTION AND THE ENVIRONMENT**

The Fish, Wildlife and Recreation (FWR) diploma program and the Forest and Natural Areas Management (FNAM) program are broad-based, current and practical two-year diploma programs which are part of the Renewable Resources Department at BCIT that also includes the Ecological Restoration degree programs.

The FWR program is designed to give students a broad range of applied skills, experiences and knowledge for careers in the dynamic and diverse field of resource management. The program provides learning opportunities for students to identify, inventory and monitor fish and wildlife species in British Columbia and the habitats they use.

The FNAM program trains graduates for employment in the range of fields including industrial forestry, urban forestry, silviculture, arboriculture and natural resources management. Graduates are eligible for registration as Registered Forest Technologists (RFT) in British Columbia and have a number of available pathways to other levels of certification and education.

The program is seeking a regular, 100% appointment, Assistant Instructor to assist in the delivery of a range of courses within the FWR and FNAM diploma programs and others as the need requires.

Minimum Qualifications:

The candidate we are seeking will have a combination of the following:

- Diploma or higher in forestry, ecology, or related discipline.
- At least three years of field or operational experience in natural resource management, such as forestry, silviculture, earth science, soils, plant identification, fire management, forest health, or fisheries and wildlife management.
- A professional designation in natural resource management is an asset. Examples include: R.P.Bio., R.P.F., R.F.T., P.Ag., I.S.A. Cert. Arborist, etc.
- Excellent communication and interpersonal skills.
- Demonstrated ability to effectively teach at the post-secondary level in classroom, field, and online settings.
- Demonstrated ability to work in a team, being flexible and adaptable to meet the needs and challenges of our dynamic and ever-developing programs.
- Valid Class 5 Driver's License. The successful applicant will be required to obtain a Class 4 license if they do not already hold one.

Preferred Qualifications:

- Experience operating chainsaws and brush saws in field settings.
- Experience working with GPS equipment & software, as well as GIS applications and related software is an asset. Examples include: ESRI ArcGIS suite, Trimble Pathfinder Office, QGIS, Avenza, Road Eng, etc.
