GIS Innovation Coordinator

CRIBE is seeking a GIS Innovation Coordinator to identify and coordinate innovative forest-based GIS solutions and assist industry partners in the development of geospatial applications as part of CRIBE’s initiatives.

The successful applicant will be working to facilitate and coordinate with CRIBE’s partners to support the deployment of innovative new GIS based applications. Working with the CEO and Nextfor Coordinator, the successful applicant will help promote strategic innovation initiatives of CRIBE partners with spatial data. The successful applicant will also be responsible for supporting data and technology industry challenge funding opportunities through Nextfor. Additionally, the successful applicant will be responsible for implementing and maintaining innovative geospatial resources including internal economic development tools as required.

Qualifications:
- Experience and strong capabilities with Esri products, including the suite of ArcGIS products
- Ability to manage large datasets and geodatabases incorporated from many sources
- Experience with Esri ArcGIS API for Javascript is a plus
- Understanding of the natural resources and forestry sector
- Ability to coordinate and facilitate with CRIBE partners and other stakeholders
- Ability to work independently and within a team environment
- Strong communication skills and ability to work with a diverse group of people
- Excellent written skills and proficiency with public speaking

Additional Skills
- Experience in GIS programming and scripting tools with Esri software including arcpy and geoprocessing tools is a plus
- Experience with network (routing) datasets and performing analyses on network datasets is a plus
- Experience with web programming using HTML5, CSS3, JavaScript, TypeScript is a plus
- Strong interpersonal skills and project management skills
- Working knowledge of forest management and Ontario’s bioeconomy is required for this position

The position is for an initial 2-year period, based in Thunder Bay Ontario, with an expected salary range dependant on experience of $55,000 - $60,000. CRIBE is open to accommodating a remote work environment.
