

FIELDING RESOURCES LTD. Is Hiring Logging Engineer / Forestry Technicians

Join a team of seasoned professionals in the natural resource industry, working in the breathtaking and remote landscapes of British Columbia! You'll benefit from regular performance evaluations and personalized mentorship, along with competitive compensation.

Forestry Technicians help with forest management by collecting the needed data for forest management. Our operations primarily focus on pre-harvest assessment and include, riparian assessment and mapping, boundary and road layout, identifying logging hazards, timber reconnaissance, and GPS traversing.

Your Workplace Location: Prince Rupert, Terrace and Kitimat Sound

Wages: Competitive; 30 – 40 \$/hr - Depending on experience

Benefits: Dental and Medical

Responsibilities:

- Boundary, road Layout and traverse
- Harvest/road building auditing and inspections; Working with contractors and operations
- Riparian assessment, mapping, and prescriptions application
- Road engineering estimates and appraisal data field survey
- Timber reconnaissance and stand level timber type stratification

Requirements:

- Forestry field work experience using GPS, Avenza, and other mapping programs as well as experience working near active logging operations
- A safety conscious attitude, traveling, a love of the outdoors
- Demonstrated ability to work both independently and as part of a team
- 2 years of forestry-related experience
- Punctuality, dependability, and accountability in the field
- The ability to work away from home for scheduled periods of time
- *Previous experience operating ATVs and pick-up trucks safely on various road conditions is an asset*
- *Post-secondary education in natural resources, forestry or a related field is an asset*
