

Position: GIS Analyst / Assistant Forest Engineer

Location: Duncan, BC

Job Type: Full Time

Generous Forest Services (Genfor) is a full phase natural resource management company based out of Southern Vancouver Island. Genfor provides forest engineering, silviculture, timber evaluation, geomatics and drone services across coastal British Columbia. Our expanding client base includes community forests, woodlots, tree farm licenses, private land-owners and First Nation tenures. Genfor's mission is to provide professional services while maintaining a safe and respectable work environment for our employees.

Genfor is seeking a GIS Analyst/Assistant Forest Engineer to join our Cowichan Valley team. The ideal candidate will be self-motivated and works well independently or as part of a team in a changing environment.

Qualifications:

- Post-secondary education with a degree or technical diploma in forestry
- Experience in the following platforms: ArcGIS 10.X and extensions, Cengea & Land Resource Manager
- Experience with integrated GIS and GPS applications
- Understanding of LiDAR and it's office and field application
- Minimum of 2 years' experience in forest engineering, timber development or silviculture
- Physically fit, well organized with strong and effective written and oral communication skills
- A valid BC driver's license

Additional Skills:

- Knowledge in network administration and troubleshooting
- Drone programming and flight navigation with Transport Canada Basic Pilot License
- Background in silviculture surveying, supplying recommendations and data entry in RESULTS

Applicants who are registered members, or are eligible for registration, with the ABCFP as an RFT or RPF are preferred.
