

# Haliburton Forest & WILD LIFE RESERVE LTD

**General Manager – Murray Bros. Lumber Company  
Madawaska, Ontario, Canada**

Murray Bros. Lumber Company (MBLC), a division of Haliburton Forest & Wild Life Reserve Ltd., is seeking an experienced **General Manager** to lead a high-performing, value-added Ontario sawmill producing approximately **20 million board feet annually**.

This is an exciting opportunity for the successful candidate to join us in our vision of sawmill modernization, the practice of sustainable silviculture, and our positive culture. In just seven years, the Haliburton Forest Group has transformed from one sawmill cutting 4 million fbm of green hardwood lumber to six sawmills with value added capabilities, cutting upwards of 40 million fbm. Over the next seven years, we plan to modernize and expand our existing sawmill platform. This continuing rapid growth has created opportunity for the applicant who shares our vision and values.

Reporting to the **President of Forest Products / Executive Leadership**, this role provides full leadership accountability across operations, safety, compliance, financial performance, and strategic growth. You will work closely with an established management team to optimize production, drive modernization initiatives, and align operations with sales and market demand.

## **Key Focus Areas**

- Sawmill, remanufacturing, planer, kiln, and value-added operations
- Boiler, steam plant, and TSSA compliance
- Financial management, budgeting, and capital planning
- Strategic modernization (automation, optimization, scanning systems)
- Leadership of multidisciplinary management teams
- Production planning aligned with sales, quality, and recovery targets

## **What You Bring**

- 10+ years of leadership experience in wood processing
- Proven ability to lead large manufacturing teams
- Strong financial and operational acumen
- Safety-first leadership mindset
- Working knowledge of Ontario forestry/industrial regulations (preferred)
- Proficiency with Excel, Teams, SharePoint, and related tools

This is a senior leadership opportunity for a hands-on, results-driven professional ready to lead a major Ontario wood products operation into its next phase of performance and modernization.
