

Forest Nursery Superintendent

Industrial Forestry Service Ltd. (IFS) is one of the largest natural resource consulting firms operating in British Columbia for the forestry, bioenergy, oil & gas, and mining sectors. IFS is an employee-owned Canadian company where every staff member is invested in client-centric solutions, competitively priced services, and a commitment to uphold the highest performance standards.

IFS is seeking a Forest Nursery Superintendent for its Ness Lake Nursery, Prince George, BC. The Nursery grows approximately 20 million forest seedlings per year in 110 free-standing greenhouses and has been in operation since 1980.

The Forest Nursery Superintendent will supervise a large team and will plan and coordinate key events such as sowing, growing and seedling harvest. The role will involve communicating with clients to ensure high service levels are maintained. Collaborating with internal leaders will be essential, as well as ensuring a safe work environment for all staff.

This is a leadership role in the Nursery with opportunities for advancement as part of the succession plan.

The ideal candidate will bring at least ten years of operational crop production/nursery experience, preferably within greenhouses. A college or university agricultural or horticultural degree, diploma or certificate is preferred, and a relevant trade certification will be an asset. Excellent managerial skills and the ability to plan and execute nursery operations will be essential. A class 5 driver's license will be required.
