---

Landmark Solutions Ltd., located in Salmon Arm, is a diverse natural resource consulting company providing services to clients in a range of natural resource disciplines. Our clients rely on our innovative and economical solutions to conserve resource values and ensure safe and efficient operations.

We are currently looking to add a **Forester** to our team. The successful applicant will be eligible for registration with the ABCFP and have a minimum of 2 years experience. He/she will have an understanding of forestry legislation and regulations, be experienced in forestry operations and have strong organizational and communication skills. Knowledge and experience in a range of forestry related software (Cengea, Resources, Phoenix), GIS and Microsoft Office™ would be considered an asset.

Reporting directly to the Natural Resource Manager, the **Forester** must have the proven ability to work in a competitive business environment with a focus on forestry development and project management. Typical duties include:

- 🕒 Multiphase forestry development for Landmark's major licensee clients,
- 🕒 Monitoring contractual deliverables, work progress and timelines,
- 🕒 Providing expertise and support for forest development planning and operations,
- 🕒 Drafting, reviewing and/or signing/sealing of professional documents:
  - Forest Stewardship Plan / Woodlot License Plans drafting, signing/sealing,
  - Site plan data collection & document drafting, signing/sealing,
  - Appraisal preparation and submission,
  - Cutting Permit / Road Permit preparation and submission.

Benefits/Perks to working at Landmark? We offer:

- 🕒 Opportunities for long term employment with increasing role/responsibility,
- 🕒 Paid training and professional development opportunities,
- 🕒 Compensation package that includes overtime, health benefits, profit sharing, and employer matched RRSP contributions,
- 🕒 Diversity of project types and locations and job functions,
- 🕒 Commitment to efficient usage of available technology – Ipads, Lidar, drones etc.,
- 🕒 Opportunities to use skills and experience working in multiple natural resource disciplines.

Candidates with lesser experience or qualifications are encouraged to apply and may be considered for this position or other positions.

If you are seeking a rewarding position with opportunities for long term career advancement, then please forward your resume and cover letter to [mail@landmark-solutions.ca](mailto:mail@landmark-solutions.ca). The position will remain open until filled with work able to begin immediately.
