GIS TECHNICIAN

As part of the Woods team based in 100 Mile House, BC you will be responsible for the maintenance and development of an integrated Information System utilizing ArcGIS (Desktop & web GIS), ArcSDE and Oracle database. The position will include analysis for strategic and operational planning projects.

Qualifications:

- Graduation from an accredited post-secondary GIS program
- Experience using ESRI's ArcGIS, Geodatabase, ArcSDE, FME
- Understanding of RDBMS principles (esp. Oracle) and SQL
- Familiarity with data management systems such as the Land Resource Manager (LRM) would be an asset
- Some programming skills, in Python or other language
- A clear communicator with good interpersonal skills
- Strong analytic and management skills
- Forestry education or forest industry background would be an asset

Duties and Responsibilities:

- Maintenance & quality control of spatial data in The Land Resource Manager (LRM) for the Woods Department
- Prepare & submit digital data to government, to provided standards
- Work with Woods Staff on mapping and analytical projects
- Support Woods staff with LRM and GIS tasks

- Generate and provide LRM reports for all forestry applications
- Work with other licensees and consultants to ensure data exchange standards are maintained

100 Mile House is located in the South Cariboo Region of British Columbia, close to Kamloops and Williams Lake. 100 Mile House and surrounding area is home to approximately 15,000 people and offers a close knit, friendly atmosphere with modern recreation, education and medical facilities, and excellent outdoor recreation opportunities
