Western Canadian Timber Products (WCTP) is a locally owned and operated logging and tenure management company with operations across the Fraser Valley. It provides full phase, multi-discipline forestry management to an array of Forest Licenses, Woodlot, and First Nation Partnerships.

WCTP has recently expanded its operations to include several new licenses, and WCTP is currently accepting applications to join the Engineering Department for the following positions:

Summer Student/Junior/Intermediate Technician: hourly position $24-32/hour

- Class 5 Driver's License
- Committed to safety and strong work ethic
- Able to endure the rigors of working in outdoor setting in all Four seasons.
- The ideal candidate(s) will have a passion for working in the outdoors and be established within the Fraser Valley; preference would go to those enrolled in an approved resource management institute.

The scope of the work is based 100% with in the Fraser Timber Supply Area (Mission, Harrison, Fraser Canyon & Hope). Enjoy working and being out in the forest all day while being within an hours' reach of Vancouver in the evenings and weekends.

The work is consisting of mostly of silviculture surveys, road and boundary traversing, timber cruising, and waste and residue assessments. Renumeration is based on a Ten (10) hour day (~Chilliwack & Area Marshal Point). Additional renumeration is available and merit based.

WCTP is committed to safety, indigenous reconciliation and supporting professional development for the skill sets each member brings to the team.

Please direct Resumes to safety@wctp.ca

All applicants will be considered; only those selected for an interview will be contacted.
